Our Philosophy:

Welcome to Mt. McKinley Animal Hospital. For over 40 years we've been taking care of pets and the people in our community. As a respected veterinary hospital, everything we do is done to ensure the comfort and well-being of our patients and their owners. It is our goal to educate and involve clients in developing individualized preventative health care plans that are best for their special companions. From routine to advanced care, Mt. McKinley Animal Hospital is proud to offer the very best in veterinary medicine.

Your Pet's Caregivers:

We work hard to maintain an excellent staff of doctors, receptionists, technicians, and assistants. Our veterinarians and licensed veterinary technicians continue to supplement their education, and together with other staff members, we offer a wealth of knowledge and experience in the care of your pets. If your primary doctor is unavailable, another highly qualified doctor will monitor the case using your pet's detailed medical record to continue care.
